SUZUKI MELODION **W-37**

SUZUKI W-37

Wooden Melodion

Made in the Forest!

Aiming for the soft, natural sound that harmonizes with other musical instruments.

The charm of the Melodion is the distinct sound which is individual and not lost within the sound of accompaniment instruments. We created the softer sound of the W-37 which directly aims at harmonizing with other instruments, particularly for music that requires to be expressed as delicate sound, such as Classic or Musette. Wood has the property of absorbing and suppressing high-pitched overtones, creating something softer and more balanced. We focused on creating the Melodion body from wood, which is a very important element that influences the sound, allowing the creation of a delicate, clear reed effect.

The unified feeling of the instrument for a more expressive sound

The overall warmth of the wood and the smooth feeling of the surface texture enables the fingers to glide smoothly and comfortably. The shoulder strap can be attached, allowing a more uninhibited playing style, for maximum enjoyment and expression.

*The strap is not included in the accessories.

The presence and harmony from the beauty of nature

The color, gloss and natural grain of the wood shows the natural beauty of this remarkable instrument. Classically effective in joining with other instruments, particularly in performance with strings, such as violin or cello. The rarity of natural wood and each one being 'one-of-a-kind' adds to the overall charm of this instrument.

Made in the Forest.

OPTIONAL MOUTHPIECES

option

Flexible long black 'Iron Tube' Mouthpiece

MP-161

This semi rigid Tube mouthpiece adjusts easily and hold its shape, ideal for singing into the Melodion on a shoulder strap.

Flexible Mouthpiece for extension

MP-181

Made from the same material as the MP-161, this is a short extension tube. Connected to the Melodion and allowing your choice of mouthpiece to connect on to it.

Trombone type Mouthpiece

MP-191

Used externally on the lips, creating a good response and volume, due to the shorter length.

■ SPECIFICATION

Keys/Range : 37 keys / F³
 Accessories : Soft Bag / Three mouthpieces
 (Deluxe short mouthpiece/MP-141,
 'S' shaped mouthpiece / MP-151,
 Standard mouthpiece pipe with L
 shaped connector/MP-171)
